## Reflective vest Economic Malla

[SR-1011]

### Features

- Made of open knit mesh, with plastic coating (sizing).
- Reflective thermal 100% PVC yellow 1 3/8 "with encapsulated microspheres, resistant to temperature changes.
- Double hook and 1 "plush adjustment on the front.
- Elastic straps on the sides.
- 1 "high strength polypropylene bias.
- Unitalla
- Colors: Orange, Green, Blue, Yellow, Black, white

### Advantage

- Bones of strident neon color that highlights its high properties visibility.
- The "X" on the back is a new visual code that means "ALERT", and it serves to identify a worker fallen in an attempt to escape due to lack of oxygen or gas poisoning.
- Identify in dark areas if the worker is in front or back.
- Resistant to sun exposure.
- High tear resistance
- Resistant to climatic changes.
- Protection against Ultra Violet rays (UV)

### Applications

- Sport activities.
- Construction industry in general.
- Mining industry in general.
- Merchandise management in general.
- Land and air transport industry in general.
- Supervisory or supervisory activities.
